Procedures for pairing Motorola V551 with 2005 BMW 545i:

Motorola V551:

1. Press Menu
2. Scroll to Settings and select
3. Scroll to Connection and select
4. Scroll to Bluetooth Link and select
5. Scroll to Setup and select
6. Scroll to Power and select (change)
7. Scroll to "On" and select
8. Select "Back"

BMW:

1. Turn ignition switch to position 1 (Acc) or 2 (Run)
2. After the I-Drive Menu boots, select the Lawyer message
3. At the I-Drive menu, press the controller once
4. Scroll to Communications Settings and press the controller
5. Move up to the top menu
6. Scroll over to "Bluetooth" and press the controller
7. Make sure that the "Bluetooth" Communication Active" message is checked (if not, scroll to the message and press the controller to turn it on)
8. Move up to the 2nd menu
9. Scroll over to "Phone" and press the controller
10. You should see your phone listed as "Motorola Phone" or whatever name you have given the phone beneath "Bluetooth connectable in this menu". If not, your phone has not established a connection
11. If the phone has not established a connection, then on your phone you should still be at the "Bluetooth Link" menu. Scroll to "Handsfree" and select.
12. Scroll to "Look for Devices" and select.
13. The phone will now look for and attempt to pair with the BMW.
14. Once the phone has found the car, the phone will display "BMWxxxxx" xxxxx will be the last 5 digits of your VIN.
15. On the phone, scroll to the device (i.e. BMWxxxxx) and select. The phone will say "seeking device"
16. Once the I-Drive recognizes the phone, the I-Drive will give you a message "External Device Requests Access", "Refuse/Add. Scroll to Add and press the I-Drive controller on the car.
17. The car will then ask you for a "PIN", enter 4 zeros, and pull the controller back, and then press the I-Drive Controller to Accept.
18. The phone will ask "Bond with Device", Yes or No. Select Yes.
19. The phone will ask you to enter "Key" enter 0000 (The same code entered on the car), and select "OK"
20. The phone will state PIN verified and saved.
21. Phone should appear on I-Drive Screen

22. Press the Menu button twice to go back to the basic I-Drive Screen.
23. Go to "Communciations"
24. Check the bottom part of screen, phone should appear as "Portable" on left hand side of screen.
25. The remainder of the process should take about 1 hour for the address book to load, and the phone to be functional. Just be patient and give it some time.
