Bikes & Equipment

A real BMW.
You can tell from
your heartbeat.

Your heart is beating faster. Your eyes sparkle. There is just as much passion and enjoyment in the new BMW bikes as there is in any BMW. And whether you prefer tarmac, mountains or fields – with a BMW bike, you will enjoy every inch of the way. BMW bikes stand for highest quality, optimum safety, latest technology and unique design. Manufacturing processes usually only found in automobile production create dynamic surfaces, powerful lines and trademark BMW looks. Our frames will make your heart race even when stationary. Good to know also that all our bikes meet the very highest quality and safety requirements. After all, we put these bikes through their paces when testing them. Now it's your turn.

A person is riding a BMW bicycle on a dirt trail. The bicycle is in the foreground, with the front wheel and handlebars visible. The rider is wearing a dark jacket. The background shows a rocky, hilly landscape with sparse vegetation under a blue sky with light clouds. The text is overlaid on the image, describing the bicycle's features.

Rear-wheel drive,
sports seat, aluminium wheels –
a true BMW.

The BMW Cross-Country Mountain Bike. Hot tarmac or cool forest trail. Extreme downhill or steep uphill. Long-distance tour or sprint. The BMW cross-country bike lets you experience each ride with the intensity you expect from a full suspension bike. Safety is ensured through great traction on uneven surfaces, while the bike's lightweight construction and sporty yet comfortable suspension make it supremely agile. The fork and dampers can be individually adjusted to your weight. Whether you're riding on hard gravel or soft forest ground, on slippery tarmac or stony mountain terrain – quality components like the hydraulic disc brakes and four-pivot rear suspension ensure maximum enjoyment. So no matter which route you end up choosing, you'll always arrive in fine style.

Weight: 11.6 kg. Sports suspension with lock-out suspension fork and 4-pivot rear suspension with anti-bobbing technology. Colour: Matt Black.

Chassis:

- Frame** Aluminium 7005 full suspension with 4-pivot rear suspension, hydroformed, BMW design with integrated BMW logo, matt black, powder-coated
- Frame size** S (body size up to 168 cm)
M (body size 165–178 cm)
L (body size 174–190 cm)
- Frame height/
article number** 42 cm (S) 80 91 0 394 033
47 cm (M) 80 91 0 394 034
52 cm (L) 80 91 0 394 035
- Fork** Manitou Skareb Super telescopic air suspension fork with Remote LC, 100 mm travel, Post Mount disc brake mount
- Damper** Manitou Swinger Air SPV 3-Way air shock, adjustable pedalling platform threshold, 100 mm travel

Drive:

- Crank set** Shimano XTR
- Shift system** SRAM X.0, 27 gears, twist shifter
- Rear derailleur** SRAM X.0
- Front derailleur** Shimano XTR
- Cassette** SRAM PG-990, 11–32 teeth
- Pedals** Shimano XTR

Wheels:

- Wheel set** Mavic Cross Max SL
(suitable for tubeless tyres)
- Tyres** Continental Explorer Supersonic

Cockpit:

- Handlebar** Straight MTB Cross-Country bar (oversized)
- Stem** Ritchey WCS
- Saddle** Fi'Zi:k Gobi, Ritchey WCS seatpost
- Shift lever** SRAM X.0 twist shifter
- Brakes** Magura Marta hydraulic disc brakes

It doesn't
run on petrol. It runs on
adrenaline.

The BMW Enduro Mountain Bike. This top-class off-road bike is not about compromises – it's about fun. On the rough gravel of a dry river bed, along the lone trail to the next summit, or downhill through a remote gorge: if it's a challenge you're after, the BMW Enduro mountain bike is up for it. The continuously variable suspension fork adapts the geometry of the bike to every terrain. Giving you more possibilities. More speed. More adrenaline. You can almost see this bike's urge to move – every line, every concave-convex surface exudes raw power, coupled with the refinement only BMW is capable of. The monocoque frame consists of two deep-drawn shells which are robot-welded just like in automobile manufacturing. Very sturdy and extremely safe. The result: pure adrenaline, but in solid form.

Weight: 14.2 kg. Monocoque frame consisting of two deep-drawn aluminium shells (AL6061-T6), robot-welded and powder-coated.
Colour: Sand Grey/Charcoal.

Chassis:

- Frame** Aluminium full suspension with 4-pivot rear suspension (145 mm travel), two-colour finish, BMW design with integrated BMW logo
- Frame size** S (body size up to 168 cm)
M (body size 165–178 cm)
L (body size 174–190 cm)
- Frame height/
article number** 42 cm (S) 80 91 0 394 030
(Model year 2005)
45 cm (M) 80 91 0 411 276
50 cm (L) 80 91 0 411 277
- Fork** Manitou Black Platinum telescopic air suspension fork, IT function (35–120 mm variable travel adjustment)
- Spring strut** Manitou Radium RL air shock with lock-out function, size S has a length of 165 mm and 110 mm travel, sizes M and L have a length of 190 mm and 145 mm travel

Drive:

- Crank set** Truvativ KRG Firex Team ISIS DRIVE, 44/32/22 teeth, 175 mm length, metal grey chainring
- Shift system** SRAM X.9, 27-gear chain gearshift, trigger shifter
- Rear derailleur** SRAM X.9 silver
- Front derailleur** Shimano Hone™, E-Type
- Cassette** SRAM PG970, 11–34 teeth
- Pedals** Dual-function pedals with click system

Wheels:

- Wheel set** DT Swiss EX5.1 d rims, DT Swiss Onyx disc hubs in black, DT Swiss Competition 2.0/1.8/2.0 spokes, DT Swiss matching quick releases
- Tyres** Continental Gravity Pro 26 x 2.3 PROtection Fold

Cockpit:

- Handlebar** Low-rise aluminium MTB bar, 610 mm, matt black
- Stem** BMW design MTB stem with integrated BMW logo, matt black, adjustable angle
- Saddle** Fi'Zik Plateau, Kalloy seatpost, 350 mm length, 31.6 mm diameter, matt black
- Shift lever** SRAM X.7 Trigger
- Brakes** Hayes HFX MAG XC disc brake system, 180/160 V7/V6 rotor

A BMW with
6 gears is fun. So how
about 27?

The BMW Touring Bike. You speed across dark soil, past orange autumn foliage, green meadows and ice-bound streams – every ride is different. But you have a trekking bike like no other, with optimum comfort, top quality, state-of-the-art technology and maximum safety. And an unmistakable design. The frame owes its elegance to hydroforming, a new, highly advanced manufacturing process for top-class bikes which allows free-form designing. For concave and convex shapes that reflect the brilliant mountain sun or catch the shimmer of an ocean sunrise. You'll be impressed by other features too. For example, the brake cable has been integrated into the frame and the pump into the rear rack. The hub dynamo operates silently and works in every kind of weather, while the rear light remains on even when the bike is stationary.

Chassis:

Frame	Aluminium, front suspension, single-colour finish, BMW design with integrated BMW logo (powder-coated)		
Frame size	S (body size up to 168 cm) M (body size 165–178 cm) L (body size 175–185 cm) XL (body size 183–195 cm)		
Frame height/ article number	41 cm (S)	80 91 0 411 271	
	46 cm (M)	80 91 0 411 272	
	51 cm (L)	80 91 0 411 273	
	55 cm (XL)	80 91 0 411 274	
Fork	Suntour NRX 6500 Magnesium telescopic fork, 75 mm travel with lock-out function, integrated mudguard mounting		

Drive:

Crank set	Shimano FC-M540 hollowtech, 48/36/26 teeth, 170 mm length with chain guard, silver		
Shift system	Shimano Deore Rapid Fire shifters, 27-gear chain gearshift, chain: Shimano CN-HG53		
Rear derailleur	Shimano Deore RD-M511 silver		
Front derailleur	Shimano Deore FD-M531		
Cassette	Shimano CS-HG30, 11–34 teeth		
Pedals	Aluminium with reflectors		

Wheels:

Rims	Vuelta Thyphoon with wear indicator, smoothed sides		
Tyres	Continental Contact 26 x 1.75 with reflector strips		

Cockpit:

Handlebar	Low-rise aluminium trekking bar, 580 mm, matt black		
Stem	BMW design MTB stem with integrated BMW logo, matt black, adjustable angle		
Saddle/ seat post	Selle Royal Lookin Athletic, three-layered gel padding, black, suspension seatpost		
Shift lever	Shimano Deore SL-M511		
Brakes	Magura HS11 hydraulic rim brakes with Evo adapter, 2006 model		

Comfort Equipment:

Fully compliant with German Road Licensing Regulations, rear rack with integrated bicycle pump, rear light with stationary function, spring clamp, integrated mount for child seat, basket or pannier (25 kg max.), attachments for two drinks bottles, kickstand, hub dynamo with light sensor on front light, suspension seatpost.

Weight: 17.7 kg. Aluminium frame (AL6061-T6), hydroformed and powder-coated. Colour: Manganese Silver.

Fitted with
two accelerator pedals
as standard.

Chassis:

- Frame** Aluminium, front suspension, single-colour finish, BMW design with integrated BMW logo (powder-coated)
- Frame size** S (body size up to 168 cm)
M (body size 165–178 cm)
L (body size 174–190cm)
- Frame height/
article number** 41 cm (S) 8091 0 411 268
46 cm (M) 8091 0 411 269
51 cm (L) 8091 0 411 270
- Fork** Suntour NRX 6000 telescopic fork, 75 mm travel, integrated mudguard mounting

Drive:

- Crank set** Shimano Alivio FC-M411, 42/32/22 teeth, 170 mm length, with chain guard
- Shift system** Shimano Alivio Rapid Fire shifters, 24-gear chain gearshift, chain: Shimano CN-HG40
- Rear derailleur** Shimano Alivio RD-MC410
- Front derailleur** Shimano Alivio FD-M410
- Cassette** Shimano CS-HG30, 11–32 teeth
- Pedals** Sport pedals with reflectors

Wheels:

- Rims** Vuelta Typhoon with wear indicator, smoothed sides, silver
- Tyres** Continental City Contact 26 x 2.10 with reflector strips

Cockpit:

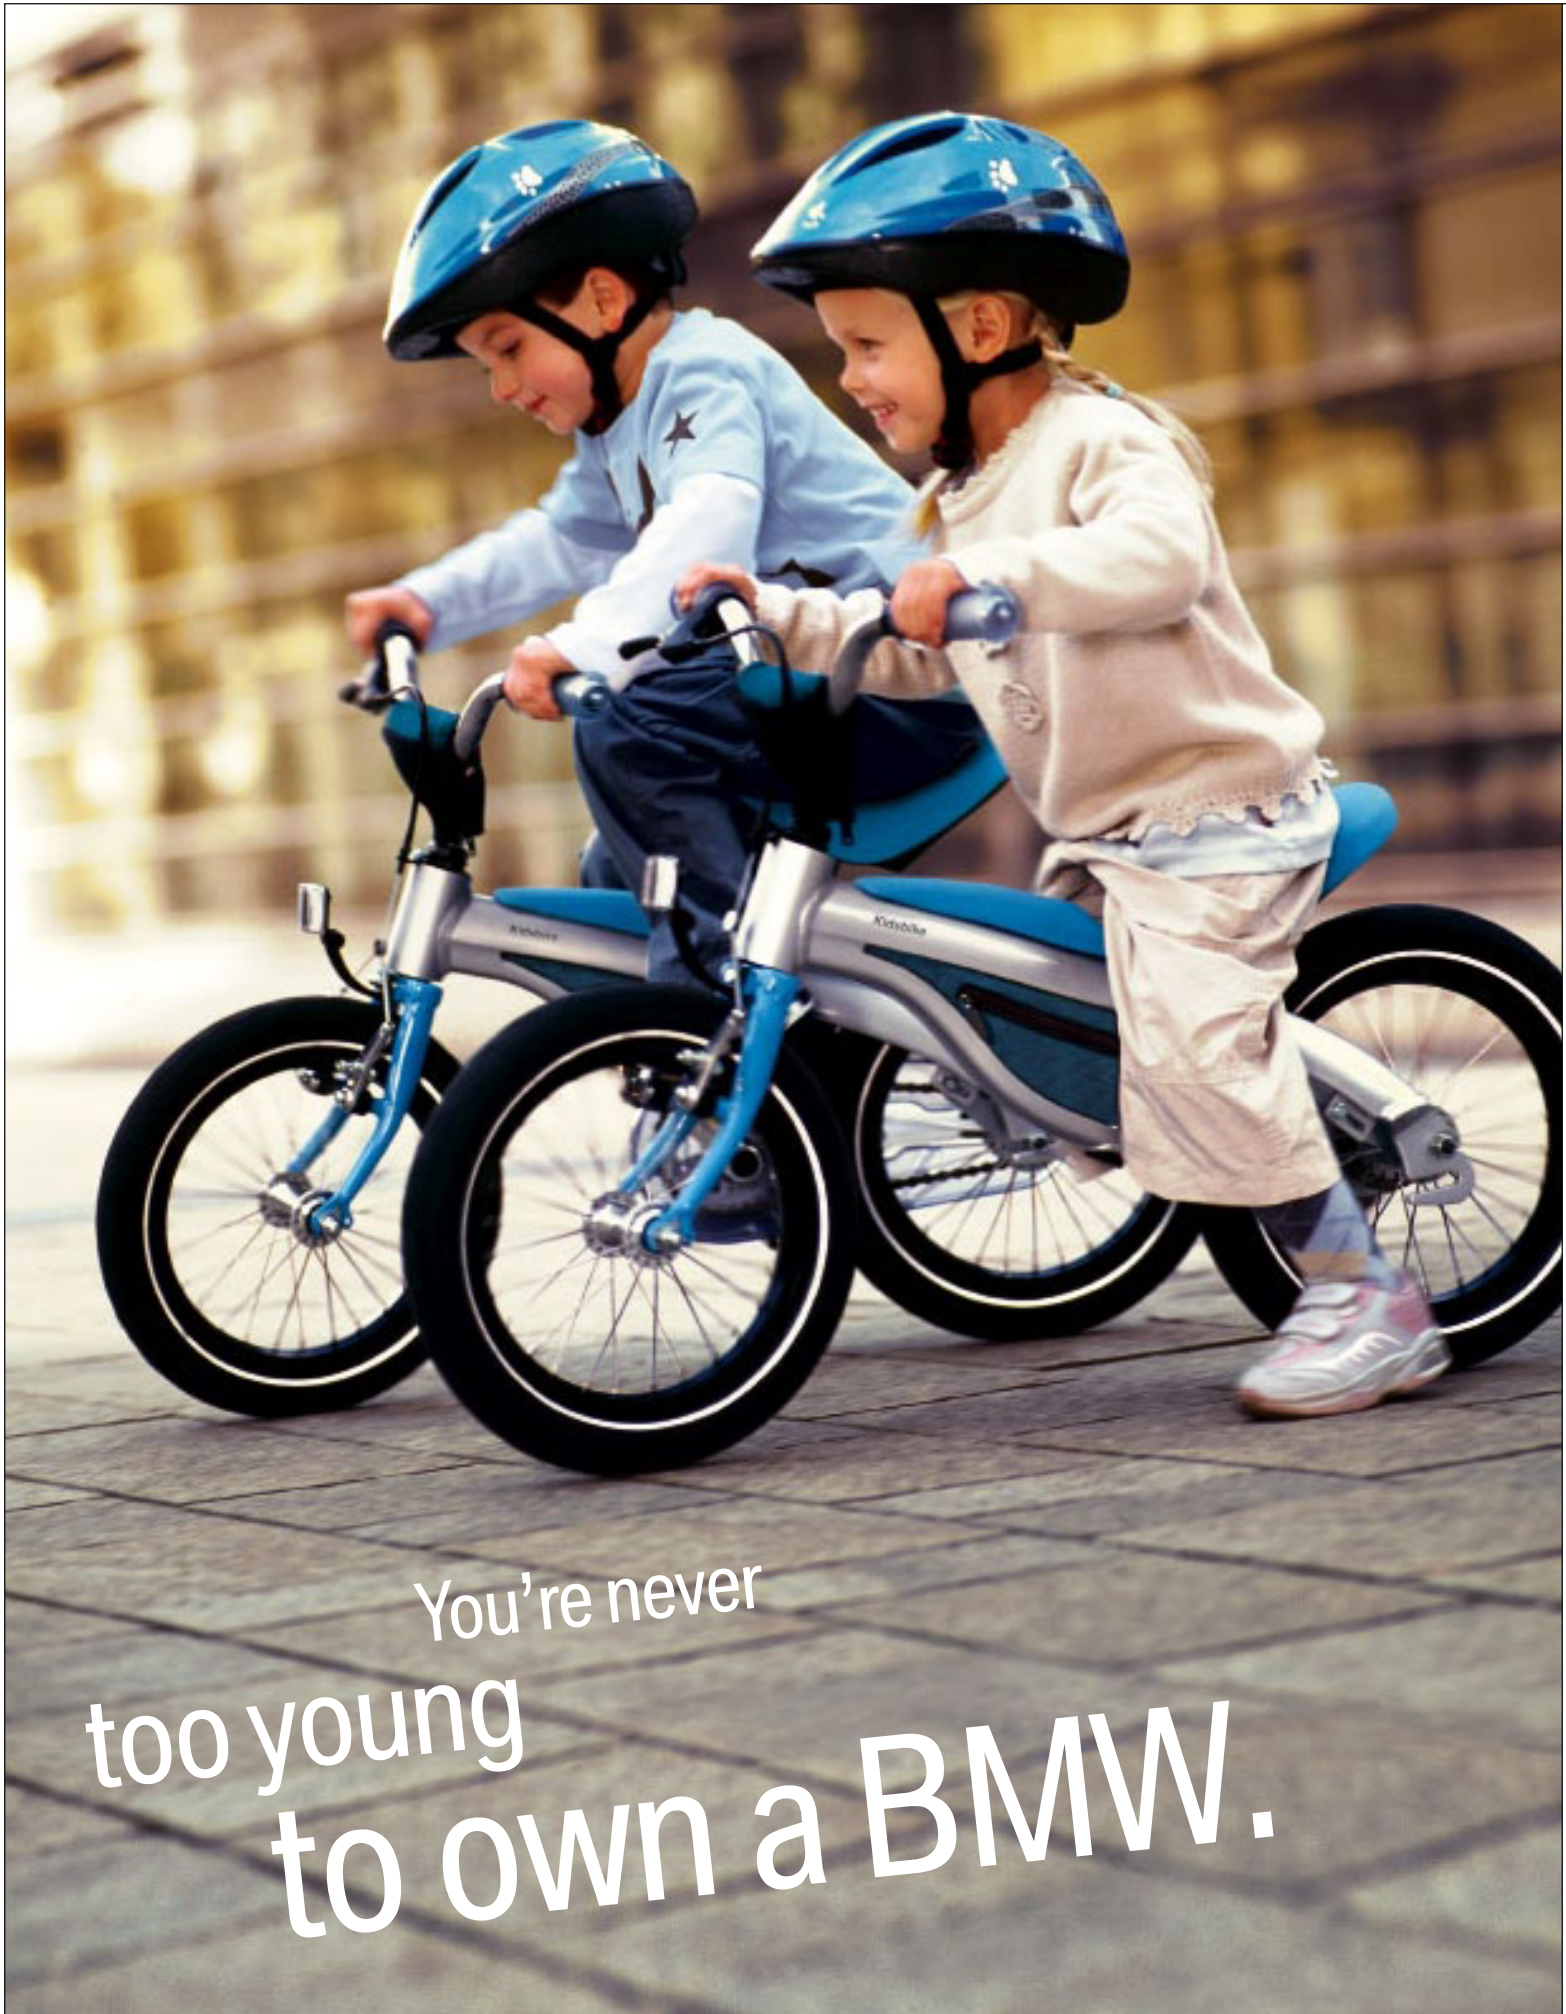

- Handlebar** City Cruiser 23° bar, 605 mm, matt black
- Stem** BMW design trekking stem with integrated BMW logo, matt black, adjustable angle
- Saddle** Selle Royal Rio Atex, Kalloy seatpost, 350 mm length, 27.2 mm diameter, matt black
- Shift lever** Shimano Alivio ST-M410
- Brakes** Shimano Alivio V-Brake
- Hubs** Shimano 36 hole, with quick releases

Weight: 14.2 kg. Aluminium frame (AL6061-T6), hydroformed and powder-coated, smooth welded seams. Colour: Champagne Silver.

The BMW Cruise Bike. An empty beach promenade at dusk. A bustling avenue on a Sunday morning. A spontaneous trip through the countryside in spring. Enjoy the BMW Cruise Bike. Easy-going. Smooth. Light. Just like the smooth welded frame with perfectly joined seams. Whether in town or on the beach, at night or during the day: this is a bike that people will notice. Its individuality, its lifestyle, its dynamism. The pleasure it offers in state-of-the-art technology and supreme comfort. In short: pure riding pleasure.

You're never
too young
to own a BMW.

Weight: 6 kg (push-bike), 8 kg (with pedal unit). The main frame is made of a multi-chamber extrusion profile, cut and bent into shape and then powder-coated. Includes kids' bike helmet tested according to TÜV/GS and EN 1071.

Chassis:

Frame High-strength aluminium, bicolour finish (powder-coated)
Seat height 38–46 cm
Article number 80 91 0 409 791

Drive:

Chain Fully encapsulated
Pedals Child-friendly plastic pedals with reflectors

Wheels:

Rims Aluminium 14", silver
Tyres Schwalbe Big Apple with reflector strips

Cockpit:

Handlebar Bar with protective padding, limited steering angle
Saddle Ergonomically shaped seat saddle
Brakes Child-friendly, adjustable cantilever front and coaster brake (in conjunction with pedal unit)
Maximum load 50 kg

The BMW Kidsbike. Everyone remembers how they first learned to ride a bike. With this bike, children can get accustomed to cycling step by step. The push bike provides a great way for small children to develop a sense of balance. This way, they feel secure from the start, and switching to actual cycling later on will be child's play. Simply fit the pedal unit and chain supplied, to convert the push-bike into a regular children's bicycle. Safety is ensured by solid plastic pedals with reflectors, tyres with reflector strips and the children's bike helmet supplied. In terms of dynamic proportions and design, the Kidsbike is as appealing as its larger stable-mates. So you can be assured that the first races on the pavement will be exciting and fun.

Battery Light Set. Front and rear lamps. Simple assembly using fast adapter. Mount and remove with one hand: simply press the button. Front light has additional side swing function. Positioning in centre of gravity prevents movement when riding over uneven surfaces. Optimised distribution lamp and special reflector mirror reduce power consumption. Luminosity fulfils legal requirements.

80 92 0 145 961

Spiral Lock. Cable length: 200 cm, mounted on bike with universal holder.

80 92 0 143 626

BMW Cable Lock. Very light safety lock in BMW design, weighs 110 g, with 90 cm (36") steel cable and easily resettable, 4-digit combination. Can be conveniently carried in pocket. Ideal anti-theft protection for short stops.

80 93 0 397 486

Miniature Pump. Manual and cartridge operation. Manometer with display up to 12 bar. Suitable for Schrader and Presta valves. Attractive in shape and ergonomical in design. Small format, lightweight – fits in your jacket pocket.

Miniature pump
80 92 0 145 953

Set of spare cartridges
80 92 0 391 364

BMW Mudguards for MTB and Cruise Bike. The long soft spoiler provides maximum splash protection. Quick to mount on the front using snap-on attachment, and at the rear using the quick-release power strap, incl. anti-theft protection.

MTB
Front **80 92 0 401 016**
Rear **80 92 0 401 040**
Cruise Bike **80 92 0 401 015**

Micro Tool. This 18-function multi-tool complements your equipment to perfection. Light and compact, it even fits into your luggage. In addition to the Micro Tool you also receive a neoprene bag to be mounted under the saddle or stored in your pocket.

80 92 0 304 330

Bike Rucksack. Ideal for day trips. Innovative in design, practical in function. Convenient shoulder and hip straps, versatile inside and outside pockets, and foldaway helmet holder. Including drink system holder, 3M reflector and safety blink clip.

80 92 0 301 428

Bike Saddlebag. For essential items such as the Micro Tool. Fitted with practical click'n'go holder, 3M reflector and safety blink clip.

80 92 0 301 430

Bike Gloves. High-quality, ergonomic, well-vented. The sewn-in gel pad prevents pins and needles. Reinforced on fingertips and on the upper ends of the index and middle fingers.

80 92 0 397 570-573 (S-XL)

Trouser straps. Foam straps with hook-and-loop fastener protect trouser legs from soiling through contact with the bicycle chain.

80 92 9 430 470

Drinks Bottle and Holder. Lightweight, stylish aluminium bottle with handy sports top. Guaranteed leak-proof, coated for food safety, holds hot and cold drinks (tested by the German RWTÜV technical safety agency). Capacity: 700 ml. The bottle comes with an ergonomically shaped aluminium holder with lateral gel cushioning for securing it safely to your Touring Bike, Cruise Bike or Cross-Country MTB.

Drinks Bottle
80 92 0 414 346

Standard Bike Helmet. Provides maximum safety in the event of a fall. The direct connection between outer shell and inner foam liner (in-mould design) makes for a lightweight helmet which is also extremely shatterproof. Finely woven straps, individual ring system and various ventilation gaps ensure a comfortable fit. TÜV/CE-approved. Universal size from 54 to 60.

Standard version
80 92 0 134 553

High-end Bike Helmet. This helmet features an avant-garde design with convex and concave lines. It provides excellent protection thanks to its foam-lined outer shell and Kevlar® reinforcement cage. An adjustable head ring, sun visor, large ventilation gaps and integrated insect net also ensure optimum comfort.

High-end version
BMW design
