Miniatures
2005/2006

Discover the
details.
BMW Miniatures.

1:18 scale. 1:1 excitement.

It may have been your very first car, or it could be your next dream car. No matter which BMW brings back sweet memories or makes your heart beat faster, with BMW Miniatures you can enjoy it today. And it is the combination of lovingly crafted details, stunning design and technical finesse that makes each

model so special. Each scale version has its own appeal. Depending on their build size, the models don't just share the materials and shapes of the originals – even trademark details like the BMW M6's CFRP roof are reproduced faithfully to create a model that truly lives up to the original. Are you ready for a test drive?

Just like its big brother – high-quality materials, superb workmanship.

Authenticity down to the smallest detail.

Unbelievably believable – the zinc die-cast rear reflects every detail, down to the stainless-steel tailpipes.

Glittering chrome details, just like on the original – the light-alloy wheel with double-spoke styling 167M.

The only difference is size – the 1:18 scale CFRP roof enables great views of the interior.

Full throttle or leisurely cruising? The decision lies in your hands.

Sporting appeal on a smaller scale – here come the models of the BMW 1 Series and BMW 3 Series. Maybe you're tempted by the new BMW 1 Series with its distinctive twin headlights and unique design. Then again, you may still be in love with the classic BMW 3 Series. Or perhaps you prefer the dynamic

BMW 3 Series Touring with its signature Hofmeister kink. Whatever scale and model is the right one for you, there's one thing you'll never have to do without: Sheer Driving Pleasure.

Small is fabulous.

Some cars just can't help standing out – with their elegance, style and poise. Cars like the BMW 6 Series Coupé and the BMW 5 Series Saloon always live up to their personality, even in miniature – thanks to the meticulous repro-

duction of both interior and exterior details. Even sophisticated features like the four stainless-steel tailpipes on the M6 are replicated. For models that are just as desirable as the real thing.

You can drive it one-handed – now that's what we call handling.

Sportiness and luxury can be combined to great effect, even in a miniature. Dynamic premium saloons like the BMW 7 Series and powerhouses like the BMW X3 can be shrunk to 1:18 scale without losing their intrinsic appeal.

And while optional equipment like the leather seats for the BMW 7 Series LCI add luxurious touches, each model reflects some of the original's personality.

A model of perfection. All you need to contribute is the engine noise.

Special editions are very popular. Maybe it's because models like the BMW Z4 "Australia", the BMW 7 Series "Korea" and the BMW X5 "Hong Kong" prove that BMW is a truly cosmopolitan brand. Our Art Cars are equally in demand. The BMW 730i styled by César Manrique, Frank Stella's BMW 3.0 CSL and

other artist-enhanced models show the strong ties between BMW and the worlds of modern design and contemporary art. But in the end, what unites all types of collectors is their passion for an outstanding automobile.

Next pit stop: your desk.

A tribute to 65 years of BMW racing: cars like the BMW 328 Roadster that won the Mille Miglia in 1938, or the BMW 328 Coupé, winner in 1940, have made racing history. Victories like the one achieved by a BMW 328 Roadster in the 1939 Le Mans 24-hour race are still remembered today, as highlights in motor racing history. At that time, the cars were still driven by BMW works drivers,

but the drivers quickly rose to fame. The post-war era brought new victories. The "Mountain King", Hans Stuck, won the 1959 "Schauinsland" Race in his BMW 507. And so it continued, the BMW M3 proving its racing superiority with its victory in the 1987 touring car championships. Motor racing and BMW – it's an ongoing success story.

For current and future aficionados.

So different and yet related: First, the BMW motorcycles, from vintage models to today's powerful machines like the R 80 and R 1200. Then, our range of classic cars from the "75 Years of BMW Automobiles" anniversary edition, featuring beauties that made motoring history. Like the BMW Isetta,

which was variously nicknamed the Star, the Motocoupé, or simply the "Cuddly Ball". With its futuristic entry through the front door, the Isetta was – and remains – a unique phenomenon in the automotive world.
