Product Planning and Strategy BMW Dealer Bulletin

MY 2007 3 Series Coupe Pricing

Last week several members of the US press were given an opportunity to test drive the all-new 3 Series Coupe. Initial impressions of the styling and the N54 twin turbo inline 6-cylinder were very positive. Articles on the all-new 3 Series Coupe should appear in weekly and online magazines within the next two weeks. The monthly car magazines should have articles in print by the September or October issues, which should be on sale by August and September. The timing should be near perfect for the launch of the 3 Series Coupe.

I'm sure that many of you have anticipated the price of the all-new 3 Coupe. In order to help build pre-orders for the Coupe, we have decided to release pricing today. While the base prices have increased versus the outgoing model, the all-new new 3 Coupe now includes a substantial amount of additional content including:

- more powerful engines
- more differentiated styling from the sedan
- xenon adaptive headlights with cornering lights
- rear head protection system
- enhanced DSC functionality (including brake drying, brake stand-by, brake fade compensation, and start-off assistant)
- enhanced interior ambiance lighting
- run-flat tires

The 328i also receives the following additional standard equipment:

- 17" wheels and tires
- 6-speed manual transmission

The MSRP's for the MY 2007 3 Series Coupes are as follows:

<u>Model</u>	<u>MY 2006</u>	<u>MY 2007</u>	<u>Change</u>
328i Coupe	\$32,300 (325Ci)	\$35,300	\$3,000
