The free consumer values on nadaguides.com are based on the Consumer edition of the N.A.D.A. Official Used Car Guide ®, and should not be utilized for industry purposes. The consumer values may vary from the N.A.D.A. Official Used Car Guide ® values presented to you by insurance companies, banks, credit unions, government agencies and car dealers due to vehicle condition, regional market differences and frequency of updates.

### Average Trade-In

An Average Trade-In vehicle should be clean and without glaring defects. Tires and glass should be in good condition. The paint should match and have a good finish. The interior should have wear in relation to the age of the vehicle. Carpet and seat upholstery should be clean and all power options should work. The mileage should be within the acceptable range for the model year. The "Average Trade-In" value is a national average calculated from the Official Used Car Guide's ten regions. The "Average Trade-In" value for your vehicle could be higher or lower than the national average due to your local market conditions.

### Average Retail Value

An average retail vehicle should be clean and without glaring defects. Tires and glass should be in good condition. The paint should match and have a good finish. The interior should have wear in relation to the age of the vehicle. Carpet and seat upholstery should be clean, and all power options should work. The mileage should be within the acceptable range for the model year.

An Average Retail vehicle on a dealer lot may include a limited warranty or guarantee, and possibly a current safety and/or emission inspection (where applicable).

**Note:** Vehicles with low mileage that are in exceptionally good condition and/or include a manufacturer certification can be worth a significantly higher value than the Average Retail price shown.
